# SCHOOL INFORMATION

## REGISTRATION

The registration fee covers the cost of handout materials, continental breakfast, and lunch. Payment must be enclosed to guarantee registration. The early registration deadline is Sunday, July 27, 2008. Registration is limited to 25 participants.

On or Before July 27, 2008

First Registrant From a Farm	\$150
Additional Registrant From a Farm	\$125

After July 27, 2008

First Registrant From a Farm	\$175
Additional Registrant From a Farm	\$150

Registration may be completed by visiting [www.vetmed.illinois.edu/ope/goatschool/](http://www.vetmed.illinois.edu/ope/goatschool/) or by submitting the attached registration form. Goat AI School fees are payable by check or money order to the University of Illinois or by Visa, MasterCard, Discover or American Express and are due at the time of registration. Early registration is recommended.

## LOCATION

The program will be held on the University of Illinois College of Veterinary Medicine campus, which is located at 2001 S. Lincoln Ave., Urbana, Ill. For maps and directions, visit [www.vetmed.illinois.edu/ope/](http://www.vetmed.illinois.edu/ope/).

Seminar check-in, continental breakfast, and lunch will be held in the lobby area immediately outside of room 100 of the Large Animal Clinic; all lectures will be held in room 100. The laboratory will be held in ward 1 of the Large Animal Clinic.

## CHECK-IN

Clinic materials will be available on the day of the program just inside the entrance located off of the courtyard area between the Large and Small Animal Clinics beginning at 9:00 a.m.

## PARKING

Attendees may park in lot F27 and follow the signs to the check-in. The entrance to this parking lot is off of Lincoln Ave.

## LABORATORY

The hands-on laboratory will provide registrants with the opportunity to practice the techniques discussed in the lecture. Goats will be provided for the laboratory.

## MESSAGES

In an emergency, messages can be left for course participants at 217/333-2907 between 8:00 a.m. and 3:00 p.m. As a courtesy to other attendees, we request that all cell phone ringers be muted for the duration of the clinic.

## TRANSPORTATION

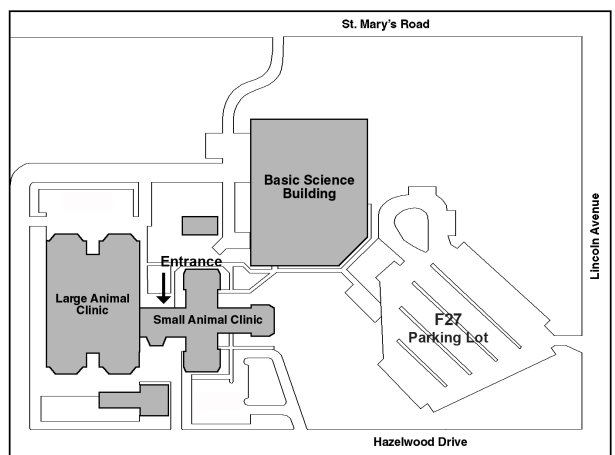

The University of Illinois is located near Interstates 57, 72, and 74. The community is also accessible by train via Amtrak and airplane through Willard Airport (CMI) at Savoy. For maps and directions, visit [www.vetmed.illinois.edu/ope/](http://www.vetmed.illinois.edu/ope/)

## CANCELLATION POLICY

Full refunds, less a \$10 cancellation fee, will be given if written notification is received by Sunday, July 27, 2008. Registrations are transferable. After July 27, refunds will not be made. We reserve the right to cancel programs and to change speakers if necessary. In the event of the program's cancellation, all registrants will receive a full refund. The University is not responsible for travel expenses in the event of a cancellation.

## QUESTIONS AND SPECIAL ACCOMMODATIONS

# SCHOOL SPEAKERS

**Dr. Sherrie Clark, DVM, MS, PhD, DACT**, is an assistant professor at the University of Illinois College of Veterinary Medicine. She earned her DVM at Virginia Tech and then joined the University as a theriogenology resident while enrolled in the Executive Veterinary Program in Swine Health Management. Upon finishing this combined MS/EVP program, Dr. Clark embarked on a joint PhD program as a practicing veterinarian for the Department of Veterinary Clinical Medicine while pursuing a PhD in reproductive physiology. She joined the faculty at the University in 2003 after becoming board certified by the American College of Theriogenologists.

**Dr. Debra Sauberli, DVM, DACT**, graduated from the University of Illinois College of Veterinary Medicine in 1991 with a strong interest in theriogenology, mostly with equine. For the next two and a half years she was employed at a small animal private practice in Indiana. In 1994 she became a private practitioner and a resident veterinarian for a large quarter horse breeding farm. She returned to the University of Illinois in 1999 to complete a residency in theriogenology and became board certified in 2003. At the Veterinary Teaching Hospital, she is a clinical assistant professor.

**Dr. Clifford Shipley, DVM, DACT**, joined the University of Illinois College of Veterinary Medicine in 1991, where he is a clinical associate professor. His professional interests include reproduction in all species with an emphasis on embryo transfer, laparoscopic artificial insemination, semen collection, and semen freezing in small ruminants. His special interests include cervid reproduction and herd health.
