# Product Drive Instructions

The Wildlife Medical Clinic receives its funding from donations and gifts. Help us care for our patients by holding a product drive with your class.

Below is a list of items commonly used or needed by the Wildlife Medical Clinic. Send announcements home with the students encouraging them to bring in items from our wish list in support of the Wildlife Medical Clinic.

Donations can be brought to the Wildlife Medical Clinic at the University of Illinois College of Veterinary Medicine Small Animal Clinic, 1008 W. Hazelwood Dr., Urbana, IL, 61802. Alternatively, we can pick up your donations when we visit your classroom with our amazing birds of prey!
