To Prevent the Spread of Disease...

To ensure the health and safety of Illinois animals and to comply with hospital policy, we ask visitors who have been outside the United States within the past two weeks to stop at the welcome tent before entering the Small or Large Animal Clinic.

Students will assess whether you may pose a risk of spreading a foreign animal disease.

In addition, please comply with the signs indicating areas of animal contact where food is prohibited. All guests must sanitize their hands immediately after any animal contact.

Mark your calendar for the next Vet Med Open House:

October 2, 2016

Welcome!

We are ready to showcase the breadth of veterinary education and practice. Before you dive in, please take a moment to review the information in this program.

This event is organized entirely by the students in the Doctor of Veterinary Medicine degree program.

Enjoy the day and ask lots of questions!
