

# Universal Capture Personal Mode: Quick Start Guide

The screenshot shows the Echo360 Capture application window. The title bar reads "Echo360 Capture" and the top left shows the "echo" logo and "Untitled". The top right shows the user name "Leah Chandler". The main interface is divided into three sections: "Edit Capture Details" (left), "Select Inputs" (center), and "User Details" (right). At the bottom, there is a "Record" control panel with a timer showing "00:00" and a red record button.

**Edit Capture Details**  
Click to change the default options for your recording.

Capture Details

Title:  Description:

Tags (separated by commas):  Publish To...:

**Select Inputs**  
Click to select the Sources you would like to capture. Universal Capture supports Audio and up to two Video and/or Display sources.

**User Details**  
Click to see what Institution you are logged into and Logout if needed.

Leah Chandler  
Echo360 University AU

**Record**  
Once a recording is in process you can **Stop**, **Pause/Resume** or **Cancel** your capture.
