

Rectal Seizure Kit

Your kit includes all items necessary to administer a dose of diazepam rectally to your animal should they experience a seizure.

The kit includes:

- 1 vial of diazepam
- 1 vial adaptor to facilitate withdrawing a medication without needles
- 1 rectal administration catheter to attach to a syringe
- Enough syringes to use a new one for each dose

Use the kit in accordance with the directions on the prescription label.

Scan the QR code or visit <https://go.illinois.edu/RectalSeizureKitVetMed> for a video demonstration of how to use the kit and administer the medication.

Intranasal Seizure Kit

Your kit includes all items necessary to administer a dose of midazolam intranasally to your animal should they experience a seizure.

The kit includes:

- 1 vial of midazolam
- 1 vial adaptor to facilitate withdrawing a medication without needles
- 1 intranasal administration device to attach to a syringe
- Enough syringes to use a new one for each dose

Use the kit in accordance with the directions on the prescription label.

Scan the QR code or visit <https://go.illinois.edu/IntranasalSeizureKitVetMed> for a video demonstration of how to use the kit and administer the medication.
