

Medication Dispensary

The University of Illinois Veterinary Teaching Hospital Medication Dispensary can create a customized medication schedule for your pet. A medication schedule can be extremely beneficial when your pet takes many medications, some medications require food and others require an empty stomach, and/or there is a concern for drug interactions. Our goal is to make treating your pet as simple as possible

Our pharmacists will review all the medications your pet takes and provide you with a handout that includes appropriate days and times for you to give them medications.

If you are interested in a medication schedule, please contact the Medication Dispensary at (217)-333-5329 and select the option to speak with a pharmacist.

See below for an example of what a pet's medication schedule would look like:

| Medication Name | Amount of Medication | Time of Day | | | | | | | |
|--|---|---------------------------|--------------------|----------------------------|-----|--------------------|---------------------------|-----|--|
| | | 7AM (empty stomach) | 8AM (with food) | 10AM (empty stomach) | 3PM | 6PM (with food) | 8PM (empty stomach) | 9PM | |
