

Abstract Information and Instructions

All abstracts will be presented as posters. A limited number of abstracts will be selected for oral presentation.

Abstracts are submitted to one of the following subject areas:

- Virus structure and gene function
- Virus transmission, biosecurity and area control
- Host response to infection, including host genetics and innate/adaptive immunity
- Vaccination strategies and therapeutics
- Detection, diagnostics and surveillance

See instructions below. All abstracts are published and made public through the meeting website and other venues. A meeting program and abstracts will be compiled and posted on-line at the meeting website as well as distributed to registered meeting participants at the beginning of the symposium.

Abstract Submission Instructions:

- Abstracts are formatted using single space, 12 pt font, Times New Roman and submitted as a Word document.
- Abstracts should be a maximum of **one page** (8.5" x 11") with one-inch margins. Do not put a border around the text area. Do not type abstract in a "text box".
- The title should be followed first by the authors, and then author affiliations. **Use the following format:**
